## SUMMARY

Junior Software Engineer with a background in Retail Management. Trained at the University of Central Florida Coding Bootcamp, acquired skills in JavaScript, CSS, React.js, and responsive web design. Ambitious and innovative problem-solver passionate about continuous learning, improving, collaboration, and developing applications, with a focus on a mobile-first design and development. Eager to leverage my skills as part of a fast-paced, quality-driven team in order to build better experiences on the web.

## TECHNICAL SKILLS

**Languages:** JavaScript, HTML, CSS

**Frameworks:** jQuery, MongoDB, Bootstrap, Bulma, Node.js, MySQL, Express.js and Express-Handlebars

**Libraries:** React.js

## ADDITIONAL EXPERIENCE

### Operations Supervisor

2019 – 2022

#### KOHL'S

Clermont, FL

Responsible for the entire operations of a multimillion dollar retail location. Dealt heavily with BOPUS, BOSS, MLS and SFS to leverage offerings and deliver a frictionless customer experience. Consistently leading teams of over 25 employees a day, trained associates on omni and freight flow processes to maximize productivity and efficiency. Included in sales management, leadership, profit/loss, and merchandising of location.

#### Key Accomplishments:

- Top 5 store in operational performance in the district throughout 2021-2022
- Delivered and maintained repeating 10/10 in operational metrics - OPR in year 2021 and 2022
- Oversaw the installation of Sephora and a full renovation at Kohls in Clermont - A 3 month intensive project that required constant communication to the flooring manager, painting manager, demolition manager, store and district manager. Lead a constant team up to 25+ associates and renovation members to complete all labor intensive tasks overnight while also planning and delegating smaller portioned duties to a day side team of 5+ associates.
- Delivered holidays 2019-2021 online fulfillment power center; 300 (out of 1160) stores selected for this process based on exceeding key operational metrics of speed, accuracy and resource rates in online fulfillment.
- 8% increase in fulfillment (top 10% of all stores) to projected plan versus the company 3% increase result in 2021.

## PROJECTS

### Nomadic Adventures

| **GitHub** [<https://github.com/JesusGonzalez05/Boolean-hooligans>]

| **Deployed Project** [<https://jesusgonzalez05.github.io/Boolean-hooligans/>]

- an online travel site that allows its user to search their desired location of travel and within seconds return the best airfare.
- Throughout this project I worked heavily on leveraging all data from APIs as well as styling and rendering needed data onto the page.
- Three APIs are utilized in this application for flight and location search, and is built primarily with HTML, CSS, Bulma, JavaScript and JQuery.

### CINEMAfiles

| **Link to GitHub** [<https://github.com/sangki810/Project-2-The-Cinemaphiles>]

| **Link to Deployed Project** [<https://cinemafiles-by-cinemaphiles.herokuapp.com/>]

- This immersive app calls all cinema and devoted movie lovers to look up their favorite cinema title (or any various cinema title), view the title's plot and upload a personal review.
- Throughout this project I held responsibility in styling the various pages/routes and contributed in creating CRUD options to allow a dynamic experience to the user.
- The app utilizes Node.js and Express.js to create a RESTful API which is stored in a database using MySQL and the Sequelize ORM. The folder structure meets the MVC paradigm and uses Handlebars.js as the templating engine.

## EDUCATION

### Boot Camp Certificate: University of Central Florida, Orlando, FL

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node.js, MySQL, MongoDB, Express, Handelbars.js, and ReactJS.
